is proud to announce

OSHA with a COVID-19 Twist, Dental Practice Act and Infection Control Webinar

DATE: SUNDAY, JANUARY 31, 2021 | TIME: 9:00 AM TO 5:00 PM

This course meets the Mandatory Dental License renewal requirements for Dental Practice Act and Infection Control, also covers the annual OSHA Bloodborne Pathogen training requirement.

BY: LESLIE CANHAM, CDA, RDA, CSP

Leslie Canham is a nationally recognized speaker and consultant specializing in infection control, OSHA compliance, the Dental Practice Act, and HIPAA regulations. Her programs are highly interactive with audience participation to educate and entertain. In the dental field since 1972, Ms. Canham's dental experience and expertise helps dental professionals reduce risks and comply with OSHA regulations.

The recent Covid-19 pandemic demands that we review, update, and fine tune our infection control protocols and OSHA Compliance, There are so many new challenges for dental

professionals: Not enough PPE, can't get the right PPE, what CDC Guidelines do we follow, how do we comply with the OSHA Respiratory Plan? Leslie will address these and many other issues to help the dental team navigate the New Normal in dentistry. This course meets the OSHA required training for Bloodborne Pathogens, Hazard Communication, Aerosol and Transmissible Diseases. Plus Dental Practice Act and Infection Control license renewal requirements.

Objectives:

- Learn what OSHA regulations pertain to COVID-19
- Identify reliable resources for infection control and safety
- Meet annual OSHA and Dental Board training requirements

Webinar Sponsored by:

As an authorized OSHA Outreach Trainer, Registered Dental Assistant, and Certified Speaking Professional, Leslie helps dental teams return to work Safely and Confidently!
